

Wisconsin High School Cycling League Criteria for Upgrade:

Considered

1. Placing in League races (90 percentile placing within field and/or winning time is the guideline for consideration)
2. Age and year in school
3. WORS results (size of field in age class, average time back from fastest overall time and placement overall within Category)
4. Other USA Cycling results and/or experience (development camps, national ranking, etc.)
5. Coach and parent recommendation (must be supported by above)

Not considered:

1. A desire by student to race a longer distance (High School races are not intended to be endurance events)
2. Parent recommendation not supported by above
3. Coaches recommendation not supported by above

We will generally err on the side of not upgrading a student/athlete should there be a doubt.

We will not consider petitions from middle school age riders petitioning up to high school category.
